About the conference

<http://www.de.ufpb.br/~flins2014/>

The 2014 International FLINS Conference on Decision Making and Soft Computing (FLINS 2014) provides an international forum that brings together those actively involved in areas of interest to the computational intelligence and its applications, to report on up-to-the-minute innovations and developments, to summarize the state-of-the-art, and to exchange ideas and advances in all aspects of computational intelligence.

FLINS 2014 proceedings will be again edited as a book by World Scientific and it will be again included in the ISI proceedings as previous ones.

Moreover, a number of SCI journals will devote a special issue to a strictly refereed selection of extended papers presented at FLINS 2014. Information about this will be available in the [Proceedings & Special Issues](#) page.

Topics for this special session:

Big Data Applications to Environment – Open Data Applications to Environment– Open Government – Water environment efficiency – Energy efficiency – Waste & Recycling management – Data Intelligent Analysis and Systems – Other related topics
