FLINS 2014 - Special Session on Aggregation functions and applications

About the conference

http://www.de.ufpb.br/~flins2014/

The 2014 International FLINS Conference on Decision Making and Soft Computing (FLINS 2014) provides an international forum that brings together those actively involved in areas of interest to the computational intelligence and its applications, to report on up-to-the-minute innovations and developments, to summarize the state-of-the-art, and to exchange ideas and advances in all aspects of computational intelligence.

FLINS 2014 proceedings will be again edited as a book by World Scientific and it will be again included in the ISI proceedings as previous ones.

Moreover, a number of SCI journals will devote a special issue to a strictly refereed selection of extended papers presented at FLINS 2014. Information about this will be available in the Proceedings & Special Issues page.

Topics for this special session:

Aggregation functions theory—Information fusion—Group decision making—Image processing—Classification--Recommendation systems—Aggregation for extensions of fuzzy sets.

Important Dates

Full paper submission……………………….. January 10, 2014
Acceptance notification……………………… March 10, 2014
Final papers submissions…………………… April 10, 2014

Paper Submission
